

OVERMOLDED 7-WAY ABS STRAIGHT CABLES

- Fully molded plug design encapsulates wire and terminal connections to seal out moisture and prevent corrosion
- Premium quality assemblies designed for the demands of modern ABS equipped trailers and for multiple-trailer configurations
- High strand count copper conductors with machine crimped brass terminals for dependable electrical connections
- Molded plug housing is completely solid throughout to prevent crushing or deformation
- Integrated cable bend restrictor protects the assembly during sharp turns
- SAE J560 compliant
- Available as separate straight cables and in Resistance™ Series 3-In-One AirPower Line assemblies from TECTRAN®

Cable assemblies are highly resistant to:

- Moisture and corrosion
- UV light degradation
- Chemicals including diesel, oil, and common cleaning agents
- Impact, crushing, and deformation
- Abrasion

Part No.	Stk. Code	Length	Conductor/Gauge	Plug	Cable Protection
7AAB122PM	91539	12ft	4/12-2/10-1/8	Overmolded Polymer	Integrated Bend Restrictor
7AAB152PM	91540	15ft	4/12-2/10-1/8	Overmolded Polymer	Integrated Bend Restrictor
