Castrol EDGE High Mileage 0W-20

Extend Maximum Performance

Description

As your car ages, its engine can lose performance due to friction and wear. Castrol EDGE High Mileage is an advanced full synthetic that is specifically designed to maintain optimal performance for vehicles with over 75,000 miles.

Older vehicles are also prone to catalytic converter failure, which is a costly repair and one of the most common problems faced by high mileage engines. Castrol EDGE High Mileage is formulated with Phosphorous Replacement Technology, a proprietary additive that reduces the level of harmful phosphorus to protect the catalytic converter and preserve the life of your emission system. Castrol EDGE High Mileage helps your car defy its miles and extend maximum performance.

Application

Castrol EDGE High Mileage 0W-20 is suitable for use in vehicles where the manufacturer recommends a 0W-20. Exceeds manufacturer's warranty requirements for applications requiring API SP and ILSAC GF-6.

Advantages

Castrol EDGE High Mileage helps maximize engine performance and protect engines with over 75K miles.

- Phosphorus Replacement Technology to prevent emission system failure and help extend vehicle life
- Reduces leaks, oil burn-off and deposits
- Protection for 15,000 miles between oil changes*
- Helps improve fuel economy
- Also suitable for hybrids

*Up to 15,000 miles or 1 year, whichever comes first
