#### 4. First Aid Measures

**Inhalation:** If symptoms of exposure develop, remove to fresh air. Seek medical attention if breathing problem or irritation persists.

**Skin Contact:** Wash exposed skin with soap and water. If skin irritation or redness develops, seek medical attention. Exposure to spray may cause freeze burns.

**Eye Contact:** Flush eyes with large amounts of water for several minutes. If irritation or other symptoms develop, seek medical attention.

**Ingestion:** Ingestion is an unlikely route exposure for aerosol products. However, if ingestion should occur, seek medical attention.

**Most Important Symptoms:** May cause mild eye and skin irritation. Mists may cause mild respiratory irritation.

**Indication of Immediate Medical Attention/Special Treatment:** None known.

#### 5. Firefighting Measures

**Suitable (and Unsuitable) Extinguishing Media:** Use extinguishing media suitable for surrounding fire. Cool fire exposed containers with water.

**Specific Hazards Arising from the Chemical:** Contents under pressure. Exposure of containers to heat and flames can cause them to rupture often with violent force. Burning may produce oxides of carbon and nitrogen.

**Special Fire Fighting Procedures:** Firefighters should always wear positive pressure self-contained breathing apparatus and full protective clothing. Cool fire-exposed containers with water. Use shielding to protect against bursting cans.

#### 6: Accidental Release Measures

**Personal Precautions, Protective Equipment, and Emergency Procedures:** Ventilate the area. Wear appropriate protective clothing and equipment.

**Methods and Materials for Containment and Clean-Up:** Place leaking can in a pail in a well-ventilated area until pressure has dissipated. Collect residual liquid using inert absorbents and place into a suitable container for disposal.

**Environmental Precautions:** Report release as required by local and national regulations.

#### 7. Handling and Storage

**Precautions for Safe Handling:** Avoid contact with eyes and skin. Avoid breathing aerosol or gas. Use only with adequate ventilation. Wash thoroughly with soap and water after handling. Contents under pressure, do not puncture or incinerate containers.

8. Exposure Controls / Personal Protection

Exposure Guidelines:

Table with 2 columns: CHEMICAL, EXPOSURE LIMIT. Rows include Non-Hazardous Ingredients and Nitrogen, both with 'None established' exposure limits.

Appropriate Engineering Controls: General ventilation should be adequate for normal use. For operations where the exposures may be excessive, forced ventilation such as local exhaust may be needed to maintain exposures below applicable limits.

Personal Protective Equipment

Respiratory Protection: None under normal use conditions. For operations where the exposures may be excessive, a NIOSH approved supplied air respirators recommended. Equipment selection depends on contaminant type and concentration.

Gloves: None required.

Eye Protection: Safety glasses are recommended if eye contact is possible.

Other Protective Equipment/Clothing: None required.

9. Physical and Chemical Properties

Appearance and Odor: Clear liquid in aerosol can with mild detergent odor.

Table with 2 columns listing physical and chemical properties such as Physical State, pH, Boiling Point, Melting/Freezing Point, Solubility, Viscosity, Decomposition Temperature, Coefficient of Water/Oil Distribution, Flash Point, Flammability Limits, Odor Threshold, Specific Gravity, Vapor Pressure, Vapor Density, Percent Volatile, Evaporation Rate, VOC Content, Autoignition Temp, Flame extension, and Flammability (solid, gas).
